---

No. 6079—JUDL. 109, DATED CAMP SHIMOGA, 20TH NOVEMBER 1879.

ORDER THEREON.—The Judicial Commissioner will no doubt issue (if he has not already done so) circular orders to all Courts, Magisterial and Civil, in the Province, prescribing the routine to be observed in the submission of periodical returns and statements.

2. The Judicial Commissioner acts as the adviser of the Chief Commissioner in deciding what officers should be invested with Magisterial powers and what powers should be given them. Correspondence on this subject should therefore be carried on between the District Magistrates and the Judicial Commissioner. In Magisterial matters references which District Magistrates are empowered by law to make to the High Court will be made to the Judicial Commissioner direct. There is no necessity for, nor advantage in, writing to the Sessions Judge in such cases, and for the same reason, when a District Magistrate acting under the provisions of the Criminal Procedure Code confers powers on a Subordinate Magistrate in his District, he is authorized to send the notification of such powers direct to the Compiler of the Mysore Gazette.

*Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (Revenue),—dated 21st November 1879.*

Read—

Letter from the Deputy Commissioner of the Kolar District, No. 1324—381 of the 6th November 1879.

No. 4254-63—Rev. 751, dated Camp Chikmagalur, 15th November 1879.

Order thereon.—In the above letter, the Deputy Commissioner of Kolar asks for instructions as to how arrears of assessment, due for 1878—79, in cases of deaths, desertions and insolvency of the ryots, or the non-cultivation of the lands wholly or partially, are to be disposed of.

2. The circumstances of the years 1876—77 and 1877—78, which necessitated a special procedure and rendered it desirable to authorize the Deputy Commissioners to remit balances on their own authority, do not apply to 1878—79, which was a good year. There may be balances for the latter year also due by ryots whose lands, owing to their impoverished circumstances, have still lain waste. If remissions in such cases are found indispensably necessary, individual lists of the same should, in the ordinary course, be submitted for the previous sanction of the Chief Commissioner.

3. Where the ryots are dead, or have deserted, or there is no prospect of their again cultivating the lands, the lands should be first sold, and any balances which cannot be met from the same should be recommended for remission. But where there is any prospect of the ryots again entering on the cultivation of the lands, the Chief Commissioner would not desire to dispossess them of their lands by resort to coercive measures; but he would generally prefer giving the needful relief to them by allowing one or two years' time for the payment of the arrears by instalments. Where the absolute remissions of such balances are considered necessary, the circumstances of each case should be fully explained in the statements submitted to this Office for sanction.

Annual Report on Education in Mysore for the year 1878—79.

No. 4466-76—EDL. 21, DATED CAMP NAGAR, 27TH NOVEMBER 1879.

ORDER THEREON.—It is unnecessary to notice in detail all the various points dwelt upon by the Director in the above Report in connection with the operations of the Educational Department during the year 1878—79. The Province had not altogether recovered from the effects of the famine which had told on the attendance in the lower classes of schools, and in the Chitaldroog District especially, educational operations were much retarded by a severe form of fever which was generally prevalent throughout the year. The aggregate results for the whole Province however shew no falling off as compared with the previous year either in regard to the number of schools maintained or of the pupils attending them. There is an increase in the number of schools, which however is more apparent than real, being due to the change in the nomenclature and classification of the schools recently adopted under the orders of the Government of India. Under this arrangement, the several departments in a school imparting different standards of instruction are numbered as so many separate schools. This plan is useful as shewing the number of pupils under each grade of instruction, but it may be misleading in regard to the number of educational institutions maintained in the Province.

2. The number of schools of different grades as above classified, with their attendance, are shewn below:—

| Class of Schools. | | | | No. of Schools. | No. of Pupils. |
|---|---|---|---|---|---|
| University ... | ... | ... Colleges | ... ... ... | 4 | 92 |
| Boys' ... | Secondary | ... | High Schools, English ... ... | 14 | 574 |
| | | | Middle do do ... ... | 24 | 1,129 |
| | | | Do do Vernacular ... ... | 82 | 1,183 |
| Girls' ... | Secondary | ... | High Schools, English .. ... | 1 | 17 |
| | | | Middle do do ... ... | 6 | 151 |
| | | | Do do Vernacular .. ... | 7 | 114 |
| Boys' ... | Primary | ... | English Schools ... ... | 32 | 2,095 |
| | | | Vernacular do ... ... | 827 | 25,323 |
| Girls' ... | Primary | ... | English Schools ... ... | 6 | 252 |
| | | | Vernacular do ... ... ... | 43 | 2,625 |
| Special. | Engineering, Normal and other institutions | | ... ... | 9 | 823 |
| | | | Total..... | 1,055 | 34,378 |

It will be seen that there are 875 Government schools imparting instruction to 25,620 pupils and 180 Aided schools with an attendance of 8,758. In the latter are included 27 schools with an attendance of 956, intended specially for the education of European and Eurasian youths at Bangalore.

3. There are under instruction in all the schools 30,636 boys and 3,742 girls, and in regard to caste or race, they may be classified as follows:—

| | No. |
|---|---|
| Hindus .. .. .. .. .. | 28,279 |
| Muhammadans .. .. .. .. .. | 3,577 |
| Europeans and Eurasians .. .. .. .. | 1,302 |
| Native Christians .. .. .. .. | 1,049 |
| Others .. .. .. .. .. | 171 |
| Total .. | 34,378 |

4. The Director's report does not distinguish the number of boys and girls of each race attending school, nor does it shew the number of Muhammadan boys receiving the different standards of instruction. Information on these points may be usefully furnished in future reports.

5. The expenditure incurred on education during the year under notice was on —

| | | |
|---|---|---|
| Direction .. .. .. .. | Rs. | 16,067 |
| Inspection .. .. .. .. | „ | 30,209 |
| Instruction including all other charges .. .. | „ | 2,83,016 |
| | Total „ | 3,29,292 |

and it was contributed from the following sources :—

| | | |
|---|---|---|
| From Provincial Revenues .. .. | Rs. | 2,35,029 |
| „ District Funds .. .. .. | „ | 91,736 |
| „ Municipal Funds .. .. .. | „ | 2,527 |

6. The provincial expenditure comprises grants made to Aided institutions to the extent of Rs. 48,059, or 20·4 per cent. The remaining expenditure under this head was incurred in the maintenance of the Government colleges and District and Taluk schools, as well as for Direction, Inspection and other general charges of the Department. The District Funds are entirely devoted to the inspection and maintenance of the Hobli or Primary schools ; but it is under contemplation to give a wider sphere to the employment of these funds, so as to bring under them the Taluk, and if possible, even the District schools, thereby proportionately relieving the provincial expenditure on education. The Municipal contribution referred to consists of the grant made, in a solitary instance, by the Municipality of Chikmagalur for the maintenance of an Anglo-Vernacular school in that town.

7. Against the Government or Provincial expenditure of Rs. 2,35,029, must be set off the receipts from fees in Government schools amounting to Rs. 14,493, and from the sale of books, Rs. 14,082, which are both carried to the credit of Government. The purchase of books may, in future, be more conveniently provided by a separate advance, to be reimbursed by the proceeds from the sale of the books.

8. Besides the Government expenditure on education above shewn, there are the charges of the Aided institutions defrayed by their managers from sources other than Government grants. These are returned at Rs. 93,658, of which Rs 36,960 are derived from school fees. The fees in the Aided schools thus contribute 26 per cent of their total cost, inclusive of the Government grants ; and they compare favorably with those realized in Government schools which amount to only Rs. 14,493 as already mentioned. This is owing to the fact that education is free in all the Hobli schools, whilst a nominal fee of only one anna is levied in the Taluk schools. In the higher schools, the fees fixed are for the present sufficient, but there seems to be some laxity in their collection, remissions being made in favor of poor boys. Any such artificial encouragement can scarcely any longer be required now that education is thoroughly established. Those who seek education especially in the higher schools, ought in every case to pay for it. The cases of the few gifted boys of the poorer classes who deserve encouragement are sufficiently provided for by the scholarships allowed. The Director's attention is therefore drawn to the necessity of a stricter enforcement of the fees in the higher Government schools, and he should also take into consideration the expediency of introducing a very light fee in the Hobli schools, and of somewhat raising the rate of fee now collected in the Taluk schools. It is true that these schools are maintained entirely from cesses contributed by the people, but the levy of a light additional fee from those actually under instruction cannot be in any way incompatible with this fact, and if judiciously managed it may serve to set a value on the education given.

9. The aggregate expenditure on education in the Province, inclusive of that contributed from private sources for the maintenance of Aided schools, amounts to Rs. 4,22,950, and may be distributed as follows :—

| | | | |
|---|---|---|---|
| Superior instruction | .. | .. | 5·6 per cent. |
| Secondary do | .. | .. | 42·5 do |
| Primary do | .. | .. | 31·1 do |
| Special do | . | .. | 4·1 do |

10. Collegiate education is given in the Government colleges at Bangalore, Mysore and Shimoga, and in the Bishop Cotton's College at Bangalore. The number of students under instruction in these classes during the year was 92. The Government schools established at the District head-quarters and 5 Aided Mission schools at Bangalore and Mysore rank as High Schools, giving instruction up to the Matriculation standard. They have an average attendance of 574. Out of all the above schools, 3 candidates presented themselves for the Bachelor of Arts degree examination and all passed. One hundred and thirty-one candidates appeared for the Matriculation, and 38 for the First-in-Arts Examination, of which 26 and 17 respectively were successful. This unfavorable, result, which was also general in the Madras Presidency, is attributed to the character of the examination held, and not to any defect in the instruction given; but the District schools at Shimoga, Chitaldroog, Kolar and Chikmagalur do not seem to have progressed well. The Director should see that they are kept up to the mark. The success of the schools depends very much on their Head Masters. The selection to these appointments therefore demands great care and discrimination.

11 The Taluk and the Hobli schools which provide primary vernacular education to the masses of the population are of the greatest importance. These schools are now thoroughly established throughout the Province, and education is freely sought by the masses. It becomes all the more necessary therefore to give the greatest attention to the proper selection and training of the masters placed in charge of these schools, in which respect, it is believed, there is still great room for improvement. Such schools if ill-conducted without proper discipline, and under inexperienced masters or mastery of indifferent qualifications, are likely to be more productive of evil than good. The schools are at present inspected by a comparatively inferior class of Sub-Deputy Inspectors. The arrangements which have lately been made to substitute a superior class of Native Deputy Inspectors, one for two Districts in the place of two European Inspectors for the whole Province, will, it is hoped, serve to bring the Taluk and Hobli schools more under supervision. The establishment of Normal schools for the proper training of Hobli school masters, which is a matter of the greatest importance to the success of these schools, is now under consideration.

12. The subjects ordinarily taught in the Hobli schools comprise reading, writing and arithmetic. It will be useful to add some elementary instruction in agriculture, laws of health, mensuration and the system of village administration and accounts, and there should be also provision for a somewhat higher instruction in vernacular literature, if these schools are to command the esteem and sympathy of the native population. In order to infuse greater life into these schools, it is further necessary that the Deputy Commissioners and the other higher officials in the Districts should take a practical interest in them by personally inspecting them as often as they can, and the results of such inspection should be brought to notice in their periodical reports. Local boards of management, where such can be formed, as for instance at District or Taluk head-quarters, will be particularly useful, as such connection of the leading members of the population would serve to make the schools more popular.

13. Female education in the Province not only amongst the European and Eurasian classes in Bangalore, but also the primary vernacular education of native children in the Province is dependent on the efforts of Missionary societies, who receive grants-in-aid from the Government. They maintain, besides the English schools for the European and Eurasian children at Bangalore, 31 schools with an attendance of 2,121 for the vernacular education of the native female children. Female education is not a measure which, in the present circumstances of the country, the Government can successfully directly undertake, and Government operations are best confined for the present to giving grants-in-aid of private efforts, whether by Missionary bodies or by natives. Twelve Government Vernacular girls' schools, with an average

attendance of 504, appear to be kept on at Bangalore, Kolar, Shimoga and Chitaldroog. These schools which are generally attended by the superior classes in towns may well gradually give way to private and Aided schools, and where they must be retained, a moderate school fee may be properly collected in order to ensure that the education given is really valued. It is observed that the rural population do not object to send their daughters to the Hobli schools for instruction along with their boys.

14. Another department of education which is also best left to private efforts is Sanskrit education. It is noticed that the number of Aided Sanskrit schools decreased during the year under review from 13 to 12; but the efficient manner in which two of these schools at Melkote and Mysore are conducted gives promise of greater general progress hereafter with the increasing interest in the subject which is being awakened in the minds of the leading classes of the native community.

15. It now remains to notice the School of Engineering and Natural Science established at Bangalore. This school has hitherto had but a limited sphere of usefulness. During the year under review, it had only 10 students on its rolls. The Chief Commissioner has it in contemplation to throw the school open to larger numbers of students on moderate fees, but without any guarantees of appointments such as are likely to be attended with difficulties in future.

16. The Chief Commissioner in conclusion has perused with satisfaction the statement annexed to the 136th para of the Director's report. The large number of responsible Government appointments filled by men who have been educated in the public schools of the Province is conclusive testimony of the useful results with which education has hitherto been attended. The increasing numbers of students sent out of the schools for whom Government appointments cannot be found render it a matter of the greatest interest and importance to inquire in what manner they find useful occupation other than Government employment.

17. It is noticed that the Director's report, though dated the 1st June 1879, was received in this Office only on the 12th August.

READ—

Letter No. 2982, dated the 30th October 1879, from the Officiating Director of Public Instruction in Coorg.

No. 796—EDL. 6, DATED CAMP MYSORE, 3RD NOVEMBER 1879.

ORDER THEREON.—With the above letter the Officiating Director submits for orders the Coorg Educational Budget Estimates for 1880—81. The disbursements are summarized as follows :—

| Heads of Disbursements. | Sanctioned Estimate for 1879—80. | Proposed Estimate for 1880—81. | Increase. | Decrease. |
|---|---|---|---|---|
| I. Inspection ... .. ... | 6,700 | 7,200 | 500 | |
| II. Instruction— | | | | |
| (1.) High School ... ... | 5,300 | 6,260 | 960 | ... |
| (2.) Boarding Houses ... .. | 1,300 | 1,200 | ... | 100 |
| (3.) Primary English Schools ... | 1,800 | 1,800 | ... | ... |
| (4.) Normal Schools ... ... | 1,300 | 940 | .. | 360 |
| III. General ... ... ... | 1,400 | 1,500 | 100 | ... |
| IV. Local Funds ... ... | 6,400 | 7,388 | 988 | ... |
| Total..... | 24,200 | 26.288 | 2,548 | 460 |
| | | Net Increase..... | 2,088 | |

2. An increase of Rs. 500 over last year's estimates is shewn under head "Inspection," to allow the Inspector of Schools to draw double batta, as the other Civil Officers in the Province do. For this increase a proposition statement is submitted by the Officiating Director. Government Resolution No. 1804, dated 19th March 1879, Revenue Department, sanctions the continuance of double and enhanced rates of batta to "Civil and other officers in Coorg." This sanction cannot apply without further extension to the Inspector of Schools, for he has never drawn the special rates of travelling allowance, but his circumstances are quite similar to those of other officers in Coorg. The Chief Commissioner therefore approves of the insertion of the extra provision in the budget and will forward the proposition statement for the sanction of Government.

3. Under head "II, Instruction," an increase of Rs. 960 over last year's estimate is shewn, being the sum provided for to meet the salaries of two additional masters at Rs. 80 per mensem for both. In Home Department No. 151, Educational, dated 2nd July 1879, the Government of India sanctioned certain arrangements whereby a master was secured for the High School on Rs. 60 a month without extra cost to Government. This arrangement however raised the High School charges by Rs. 30 a month, while it effected a corresponding decrease in the charges under "II—4, Normal Schools", by the reduction of the Training Master's pay from Rs. 60 to Rs. 30 and by debiting Rs. 30, the salary of the Kanarese and Hindustani Teachers in the High School, which had hitherto been met from Provincial, to Local Funds.

The remaining sum of Rs. 50, the salary of the 2nd Assistant Master, proposed to be met from raising the fees, was sanctioned in Chief Commissioner's Proceedings No. 601—Edl. 4, dated 13th September 1879, in anticipation of the approval of the Government of India.

4. Under head "III, General," there is an increase of Rs. 100 as compared with last year's estimates, being the sum provided for for a grant-in-aid to a Mission school to be opened at Mercara for the education of poor European and Eurasian girls. This increase is only nominal, as the sum of Rs. 100 sanctioned under "II—2, Boarding houses" as salary of a Female Teacher is proposed by the Officiating Director to be transferred for the purpose, that appointment having been abolished.

5. The increase of Rs. 988 under Local Funds has been separately considered and sanctioned in Chief Commissioner's order No. 776—Edl. 5, dated 31st October 1879.

6. The decreases are Rs. 100 under head "II—2, Boarding houses" owing to a saving effected by the abolition of the Female Teacher's appointment, and Rs. 360 under "II—4, Normal Schools" caused by the reduction of the Normal Master's salary from Rs. 60 to Rs. 30.

7. The total increase is Rs. 2,548 and the total decrease is Rs. 460. The net increase, therefore, of cost over the estimates of 1879—80 is Rs. 2,088 of which Rs. 988 falls upon the Local Funds.

8. *Receipts.*—The appointment of the 2nd Assistant Master on Rs. 50 was sanctioned on the understanding that his pay would be met from the raising of the school fees, but the receipts from "Fees and fines" for 1880—81 are estimated at Rs. 2,600 which is the same as for 1879—80. The enhanced scale of fees recommended for the Mercara Central School should at once be introduced and the estimated receipts on this account be raised by Rs. 600.

See Chief Commissioner's Proceedings No. 601—Edl. 4, dated 13th September 1879.

9. The estimated expenditure is passed for Rs. 26,288; the estimated receipts are raised from Rs. 8,200 to Rs. 8,800, and with this alteration the budget estimate is sanctioned.
